The policy additionally insures against the cost of removal or containment of Contamination.

The Insurer shall indemnify the Policyholder during the Structural Insurance Period for the cost of removing or containing contaminants in the ground where the contaminants were known both to be harmful and to exist on the Site at the time the 'notice to build' was deposited with the local authority; and the removal or containment of the known contaminants was part of the original Site preparation scheme; and where a Government Department has issued the Policyholder with a Notification of the Identification of Contaminated Land.
